SCHEDULE IV

(Section 148 and Sections 90, 91, 94, 95)

Exempt species

1. Species mentioned in these regulations are restricted to:

(a) for the name of the species; or

(b) including all of the species included in subgeneric taxon or designated part thereof.

2. The abbreviation "spp." is used to denote all species of a higher taxon.

3. Where references to taxa higher than species are for the purposes of information or classification only, the common names included after the scientific names of families are for reference only. They are intended to indicate the species within the family most commonly met and included in the Appendices. As such, each reference is to all of the species within the family.

4. The following abbreviations are used to indicate taxa higher than the rank of species:

(a) "spp." is used to denote subspecies rank;

(b) "hybrid" is used to denote a cross between

5. An import of the species or higher taxa of Exhibit included in Appendix I is accepted to be artificially propagated if the specimens of taxon fill all the following criteria: the specimens that artificially propagated (whether produced from seed or tissue of these species or cross) may be traded with a certificate of artificial propagation; and their seeds and pollen (including pollinia) and flowers, including as those criteria stipulated to seeds or solid or liquid media transported in sterile containers of these hybrids are not subject to the provisions of this Convention.

6. The names of the countries in parentheses placed against the names of species in Appendix III are those of the States submitting those species for inclusion in this Appendix.

7. Where a species is included in one of the Appendices the whole, live or dead, seeds or plant is included. In addition, for animal species listed in Appendix III and plant species listed in Appendix II or III, all parts and derivatives of the species are also included in the same Appendix unless the species is annotated to indicate that only specific parts and derivatives are included. The symbol is followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of animals or plants that are designated as "specimens" subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (iii) or (iv). Numbers are preceded by a # symbol placed against the name of a species or higher taxon refer to a footnote that indicates specific conditions or annotations that are applicable to records of such species or higher taxon under the Convention.

4. The terms and expressions below used in connection with these Regulations, are defined as follows:

Bunker

any substance whatsoever which is employed or is intended to be employed on board a ship for the purpose of providing energy for the propulsion of the ship or for the operation of any equipment on board the ship, including any substance carried on board a ship for the purpose of being so employed;

Chemical material (or substance)

a chemical substance (as referred to in the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 relating thereto) or mixture of such substances which is liquid at 37.8 degrees Celsius;

Chemical material (or substance) carrying ship

a chemical tanker as defined by the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 relating thereto, and a ship which is constructed or adapted for the carriage in bulk of any cargo specified in Appendix II to Annex II of the Convention, as amended from time to time, and is certified to be suitable for the carriage of such cargo;

Chemical material (or substance) pump

a pump (as referred to in the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 relating thereto) which is used in connection with the handling of a chemical substance that is liquid at 37.8 degrees Celsius and is specifically designed and identified to be used exclusively in connection with the carriage of such a substance;

Chemical products discharged and to which the special rules apply

Products obtained mainly as a result of any fishery, agricultural, industrial or other use or the vessel itself or a part of it but being such as to satisfy the general criteria;

Container

a fully enclosed container as the term is defined in the Convention;

Dispenser

Any person who sells or offers for sale any petroleum product to the public from a dispenser;

Dock (or Repair Station)

STATEMENT OF OBJECTS AND REASONS

The rapid decline of fauna, wild animals and birds, one of the richest and most varied in the world, has been a cause of grave concern. Many wild animals and birds have already become extinct in this country and others are on the danger of being so, always which must cause misgivings to the wild life lovers. Increased demand of its products in entertainment and fashion industries, the protective officials in wild life are ill-equipped to be deterrent. The Wild Birds and Animals Protection Act, 1912 (2 of 1912), has become completely outmoded. The existing fines have also very low, and should, thus provide punishments which are fully commensurate with the offences and the financial incentive which accrue from poaching and trade in wild life products. Excited, such fines merely relate to a source of licensing and do not emphasize the other factors which are also prime reasons for the decline of fauna, wild life products, conditions and trade in wild life and prohibited acts/provisions.

2. Having considered the above and keeping in view the fauna, the Government came to the conclusion that there are certain inadequacies and deficiencies. There is, therefore, an urgent need for introducing a comprehensive legislation, which should provide for the protection of wild animals and birds and for all matters connected therewith or ancillary and incidental thereto.

3. Legislation in respect of the aforesaid subject matter is referable to entry 17A of the State List in the Seventh Schedule to the Constitution namely, prevention of cruelty to animals and hence, each Parliament has no power to make a law in the regard applicable to the State subject to the provisions of articles 246 and 254 of the Constitution, under the Legislature of the said State may, a resolution in pursuance of article 252 of the Constitution empowering Parliament to make the necessary legislation in the matter. The Legislatures of the States of Andhra Pradesh, Bihar, Gujarat, Haryana, Himachal Pradesh, Madhya Pradesh, Manipur, Punjab, Rajasthan, Uttar Pradesh and West Bengal have passed such resolutions.

4. The Bill seeks to—

(a) constitute a National Advisory Board by rapid Rules;

(b) prescribed measures as to the maintenance and health;

(c) [illegible] for the declaring areas as sanctuaries, National Parks, etc.;

(d) regulate possession, acquisition or transfer of, or trade in, wild animals, animal articles and trophies and incidental matters;

(e) provide penalties for contravention of the Act.

New Delhi;
The 7th August, 1972.

NARENDER SINGH,
Minister.
